

AUSTRALIAN NATIVE
BY HURFORD'S

Rustic Blackbutt

Blackbutt

Brush Box

Blue Gum

Silvertop Stringybark

QLD Spotted Gum

Spotted Gum

Emphasising Australia's much loved classic species, Blackbutt, Blue Gum, Brush Box, Silvertop Stringybark & Spotted Gum.

Australian Native provides that organic, natural, warm feeling. The pre-finished range features a micro bevel edge profile and an matte finish, to achieve a floor that's earthy and effortless. Manufactured using a low shrinkage and eco-friendly Hevea as the core material and a tough Australian hardwood lamella, produces a product that's consistent in quality and structural stability. Australian Natives construction also incorporates a licensed Välinge click system, using a single action installation method, which saves time and ensures you can enjoy your new floor instantly.

Utilising the latest in environmentally friendly UV coatings, our Bona lacquer system delivers a floor finish similar to a stylish oiled floor but with the durability and protection a UV lacquer offers. Australian Native engineered flooring provides a practical yet stylish option suited for day-to-day use in most applications.

Also available, in addition the Australian Native range offers Rustic Blackbutt. A full featured floor with prominent gum veins, gum pockets, trails, burls and borer holes. The feature does not interfere with the structural integrity of the floor, but offers a glimpse of the intense life in the Australian Bush; drought, ambrosia attack and fierce wildfires are just some of the elements a tree needs to endure to produce these beautiful and interesting features. An impressive choice, adding value and character to any interior.

Hurford's superior kiln drying process helps to minimise lamella movement, preventing potential stability issues like twisting, cupping and checking.
